Recycling & Disassembly

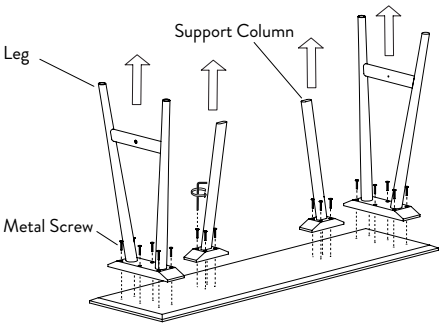

In Between SK25-SK28

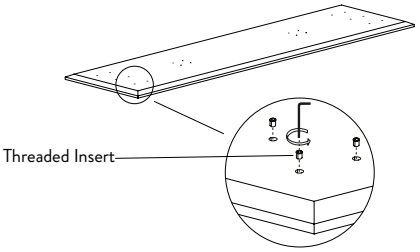

Recycling
The In Between table is built to last, and we hope that it will serve you for many years. The table is made from wood and can be easily separated into its components. All metal and wooden parts can be separated and delivered to a suitable recycling station.

Spare parts
To purchase spare parts for your In Between table, please write to our sales support team at info@andtradition.com with your query.

5 year warranty
&Tradition provides a 5-year warranty with every In Between table, which covers faults present at the time of purchase, or those which have occurred as a result of a manufacturing defect. The warranty is valid from the date stated on the original invoice.

Disassembly

1. Place the table upside down on a clean, flat surface. Remove the long flat-head screws connecting the legs to the stretcher on both sides. Remove the flat-head screws securing the stretcher to the support columns and lift off the wooden stretcher.

2. Next, extract the threaded inserts from both ends of the stretcher and seperate all dowels from the column / stretcher.

3. Carefully remove the flat-headed screws securing the support columns. Lift the support columns off. Then, repeat this step for the screws securing the legs. Seperate the legs from the tabletop.

4. Finally, use a larger Allen key to remove the threaded inserts from the support column as well as the table top.
