Product description
Café table

Environment
Indoor

Material
Powder coated steel, marble or laminate

Production process
Laminate tabletops: The tabletop is made from MDF with Fenix Nano laminate.
Marble tabletops: The marble is cut into shape and polished to get a matt finish and is then treated with a protective surface coating. Please note: this is not a stain-repellent treatment. This coating does not protect from strong detergents, alcohol, or acidic substances. Please remember to wipe off any spilled liquids immediately to avoid permanent stains. As marble is a natural material, each tabletop is unique.
Base: The base is made from powder coated steel

Variants
Tabletop: Nero Ingo Fenix Nano laminate, Nero Marquina Marble, Bianco Carrara Marble, Verde Guatemala Marble. **Base:** Black or Bronzed
