5.8 kg

Strength, durability and safety testing
EN 16139 Level 2 (Seating)
EN 15372 Level 2 (Tables)

Certifications

FSC® 100%
EU Ecolabel DK/049/042

Gliders
Plastic gliders

Stacking quantity
5

Impact
- Made with untreated teak, a natural, renewable material, resistant against weather conditions and ageing gracefully.
- Uses FSC® certified wood, supporting responsible management of the world's forests.
- Framed in steel, a robust material, resistant against corrosion.
- Steel is highly recyclable and can be repurposed in another production cycle, reducing the demand for new material.
- Designed for disassembly, making it easier to repair, renovate, pass on, and responsibly recycle at end of life.
- EU Ecolabel certified, validating high standards of durability, circular design, and responsible use of chemicals.

Recycling & Disassembly

Ville AV47

RECYLING

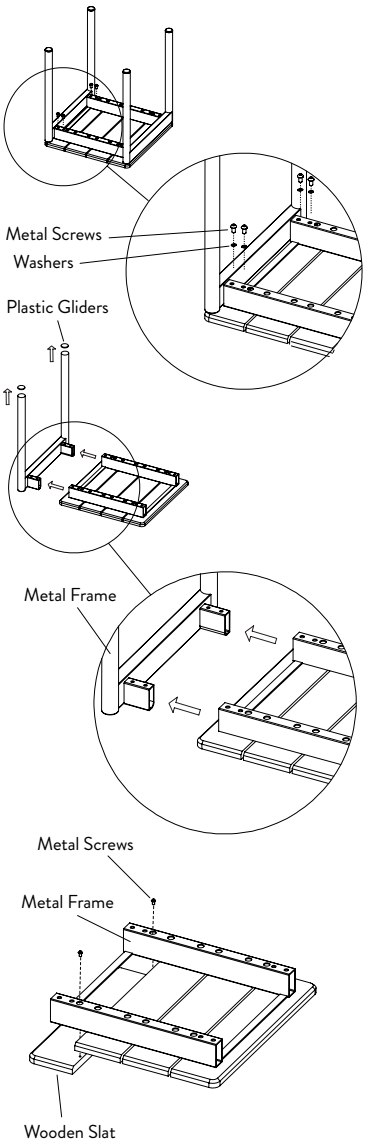

The Ville stool is built to last, and we hope that your Ville will serve you for many years. The top part is made from solid wood slats and can be easily separated from its base.
All metal and wooden parts can be separated and delivered to a suitable recycling station.

SPARE PARTS

To purchase spare parts for your Ville stool, please write to our sales support team at info@andtradition.com with your query.

5 YEAR WARRANTY

&Tradition provides a 5-year warranty with every Ville stool, which covers faults which were present at the time of purchase, or which have occurred as a result of a manufacturing defect.
The warranty is valid from the date stated on the original invoice.

DISASSEMBLY

1. Place the stool upside down on a soft, flat surface. Using an Allen key, remove the screws connecting the legs with the frame by turning counterclockwise to loosen them. Once loosened, remove both the screws and washers from the corresponding holes.

2. Remove the legs from the frame. If you encounter any resistance, ensure all screws from the previous step have been removed. Detach the plastic gliders from the legs.

3. Remove the wooden slats from the metal frame by detaching the screws holding them in place.
