Recycling & Disassembly
Ville AV25-AV28

RECYLING

The Ville table and bench are built to last, and we hope that your Ville will serve you for many years. Ville table and bench are made from steel and FSC® certified teak wood.

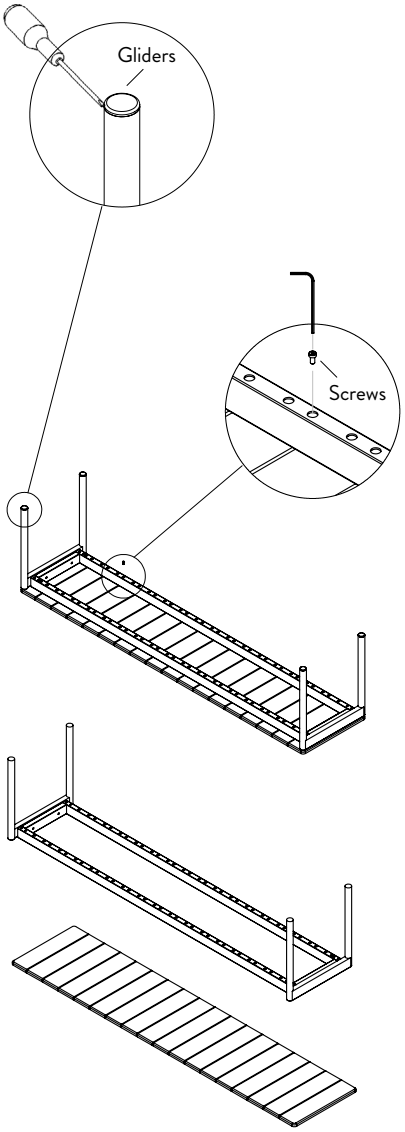

All wooden parts should be disassembled from the steel parts by unscrewing the screws in the holes in the aprons.
Both metal and wood should be delivered to a suitable recycling station.

SPARE PARTS

To purchase spare parts for your Ville table and / or bench, please write to our sales support team at info@andtradition.com with your query.

5 YEAR WARRANTY

&Tradition provides a 5-year warranty with every Ville table and bench which covers faults which were present at the time of purchase, or which have occurred as a result of a manufacturing defect.
The warranty is valid from the date stated on the original invoice.

DISASSEMBLY

1. Unmount the screws in the appointed holes from the bottom of the aprons. Each wooden slat has 4 pcs of screws that needs to be unmounted in order to separate the wood from the steel.

2. Remove the gliders with a screwdriver or a plier to separate the plastic from the steel.
